EDUCATION

University of Central Florida – Orlando, FL.

Full Stack Flex Web Development Boot Camp Certificate of Completion (Feb 2022 – July 2022)

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript,

Frameworks: MERN Stack (MongoDB, Express.js, React.js, Node.js) jQuery, Bootstrap, Firebase, MySQL

Core Concepts: Security and Session Storage, User Authentication, Responsive Design, Cookies, Local Storage

PROJECTS

Rodde-It Blog Site

- Implemented the **MVC** paradigm to build a CMS-style blog using **MySQL** and the Sequelize **NPM package**
- Built a **RESTful** application through **Express.js** that enables users to create an account which allows them to write a post, add comments as well as upvote or downvote on posts
- Dynamically rendered **JSON** data onto Handlebars.js to execute front-end functionality
- Utilized the bcrypt **Node.js** NPM package to integrate authentication and security during user sign-up and log-in

RecipeZ

- Utilized the Spoonacular and The CocktailDB **API** to create an application that allows users to search for a detailed recipe based on the search parameters for a food dish or drink
- Integrated the **Bulma** framework with a custom-made **CSS** stylesheet to deliver a polished **UI**
- Incorporated **JavaScript** to dynamically generate **HTML** recipe cards after search results have loaded
- Applied the **jQuery** library to conveniently enhance user experience features

Employee Tracker

- A command-line application to manage a company's employee database, using **Node.js**, **Inquirer**, and **MySQL**.
- Utilized the **Inquirer NPM Package** to interact with the user via the command line, and the **Console Table Package** to print **MySQL** rows to the console..
